Quiz Results to Email Not Working

Posted by krudin - 2018/05/21 07:51

_____

Sending the quiz result to the e-mail of the quiz taker is not working. Site is sending other emails just fine. Please help!

_____

Hello,

Could you grant a temporary access by email to WordPress backend and a temporary FTP access to /ari-stream-quiz folder?

Regards,
ARI Soft

_____

Thank you for your reply. I ended up installing the Easy WP SMTP plugin and now the quizzes are sending emails. Look like godaddy'€™s email servers had to be authenticated. Thanks again, and hopefully this information helps others who run into the same problem!
