
Image URLs after page 1 are wrong

Posted by aaffleck - 2018/07/31 20:28

Another weird one... when we do a multi-page quiz, the first page image URL is correct:

But on subsequent pages, the URLs are not correct:

And they never appear.

Thanks

Try to disable "Image lazy loading" parameter on "Advanced" tab on "ARI Stream Quiz -> Settings" page.

Regards,
ARI Soft

That worked. Is the Lazy Load not working because of our weird setup or... ?
