## Image in Personality not emailed to quiz taker

Posted by drmaryam - 2021/05/05 16:40

---

Hi there, is there a reason why the image that is associated with a particular personality is not emailed to the quiz take? In other words, when the quiz take completes the quiz and gets the results of their personalities, in my example there are 2 personality results, the image beneath each personality type in the email shows a broken link only, no image.

Hello,

Could you re-send mail to our email?

Regards,
