
Tick mark doesn't show in checked answer

Posted by Clouds - 2021/05/09 10:19

hi there,

can you please check the following link? demo

The tick mark doesn't show in the last question. If I change it to multiple pages, none of the tick marks will be shown, any idea? Thanks.

Regards,
Clouds

Hello,

As a temporary solution add the following code to "Custom JS code" parameter on "ARI Stream Quiz -> Settings -> Advanced" page:

```
window.ASQ_SKIP_JQ_CHECK = true;
```

PS: We will update the plugin to work correctly without this custom code.

Regards,
ARI Soft

JFYI v. 1.6.0 should work without custom code.
