
Results page

Hi,

I want to create some Facebook Ads to get new leads thanks to the quiz. I would like to create some conversions events in Facebook for the quiz takers and I need the URL for the results page. Nevertheless, I see all the pages for a test share the same URL, including the results page. Is there any way to get the results in a different URL when using the ARI shortcode?

Thanks in advance.

Kind regards.

Hello,

Currently the plugin doesn't support this ability.
