
No div tags in result box

Posted by Wissensmanagement - 2021/09/07 10:22

I put some html code as a result page but all div tags get automatically changed to p tags. My result page doesn't work without div's though, I need those to style the result with CSS. Please fix this!

Hello,

Update the plugin to v. 1.6.1 please. It keeps tags as is in WYSIWYG editor.
