## Personality Quiz - Results

Posted by M.H. - 2021/09/13 03:52

---

Hello

this is a pre-sale question for the Ariz Quiz Pro version.

Is there a way to score an item of a personality quiz negatively?

Example of a quiz for fruit:

1. i love oranges
2. I hate all fruit

Question 2 would be scored negatively.

Thank you  
Mark

Hello,

The plugin supports ability to add different score per personality for each answer. For example set 1 point for "Personality 1" and -2 points for "Personality 2" if user selects answer 1 and -4 points for "Personality 1" and 3 points for "Personality 2" if use select answer 2. You can try it in action on our demo site.

Regards,  
ARI Soft
