
Abandoned Quiz Results

Posted by yuyu - 2021/10/15 09:18

Is it possible to save started but uncompleted quizzes to the results?

I am using the plugin as part of my sales funnel so I want to understand which questions or after how many questions users quit.

On a related note, is it possible to export the results including all the data?

Hello,

Sorry, but currently it is not possible. The quiz saves questions/answers when quiz is completed, but it is a good feature for future releases.

Regards,
ARI Soft
