various question about personality quiz

Posted by Sciro - 2021/11/11 15:47

_____

Hello,

I just bought the PRO version plugin to create personality quiz but I can't do some things:

- I need that once the quiz is completed, the "telephone number" field is requested in addition to the name and email

- I need these fields (name - email - phone number - quiz result) to be sent to Active Campaign

It's possible? Thanks!

Giacomo

_____

Hello,

1. It requires modification of the plugin. For example this solution can be used.

2. Currently the plugin sends to ActiveCampaign only name and email.

Regards,
ARI Soft
