
Share result on facebook

Posted by mrmaxdomains - 2021/12/05 10:29

I purchased the plugin a few years ago but never put it live because sharing on facebook I could never make work.

Can you guys take a look here

<https://www.englishbychris.com/?aristreamquiz=1>

It

1. not share result
2. just linke to the homepage not even the quiz

:(

Your guides are outdated on the create facebook app section.

Hello,

We can't open the quiz because the provided link is a preview link which are available only for administrators. Do you use the latest version of the plugin and added a quiz to page/post?

Regards,
ARI Soft

I updated you plugin. During Facebook share there is no text with predefined variables, that I've set before. The name of quiz is shown instead.

Edit: it was shown, when I tried to repost a quiz for the third time. And for the fourth time the quiz's name was shown again. Why is it always changing?

It can be a problem with a cache on Facebook side. We guess the problem occurs when try to share the same result. Facebook debug tool can be used to verify data which is grabbed by Facebook and check Facebook cache for particular page.
