
Ordering of Personalities Not Working

Posted by jnjlegal - 2021/12/21 09:24

For personality quiz: The personalities will not stay in the order that I've rearranged them in. Every time, I press "save" to maintain the order of the personalities, it changes back to the order to how the personalities were actually inputted.

In the FAQs, it says "If several personalities have the same number of points, the main personality will be selected based on personalities ordering." I want to be able to achieve this effect because several personalities do have the same number of points.
