Different Fonts in Personality Descriptions

Posted by jnjlegal - 2021/12/21 09:37

_____

Personality Quiz: When revealing the personality description after completing the quiz, the personality description has multiple/different fonts. The description was copied and pasted from Microsoft Word document, but I don't see in the toolbar any tool that allows you to pick one font for the personality descriptions.

Update: I noticed the clear formatting tool and used that to fix the problem.

_____

Hello,

Use can use clear formatting or if you use Mac OS then you can paste a text with cmd + shift + v, it will strip formatting and insert a plain text.

Regards,
ARI Soft
