
Quizzes Won't Load

Posted by travislk - 2022/04/11 19:54

I've built my first Quiz in the pro version, and the quiz infinitely loads on the page.

Hello,

Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft

It seems this a problem with an extension which is used for optimization on your site. It breaks plugin's scripts. Try to add `inline_scripts="1"` attribute to streamquiz shortcode:
