
Further customize

Posted by jessica.barbu@littleloftm - 2022/04/26 14:58

Hi, I am using the plugin for a career quiz (using the personality quiz) and have multiple results that display, to provide options.

How can I remove the "YOU ARE" text that automatically displays before each result?

Also, can I change the "PLAY AGAIN" button text to "Take Again."

Lastly, I would like to add text before the list of results. Something like "The below careers are a great match for you based on your answers."

Are any of these items above easy to accomplish? The plugin is great, we just need more fine-tuning ability.

Thanks!

=====

Hello,

"You are" message can be changed on "ARI Stream Quiz -> Settings -> Sharing" page.

Labels like "Play Again" can be changed in translation files. You can read here how to do it.

Regards,
ARI Soft
