## Adjust Results Image Size

Posted by lcheung07 - 2022/05/02 15:01

---

How do I adjust the results image for the personality quiz? The image takes over the entire page and I'd like to make it much smaller so that the description can be read without scrolling.

Hello,

Could you provide a link to a quiz where the problem occurs? It seems this is a conflict with site theme styles or 3rd party plugin because plugin adopts images.

Regards,  
ARI Soft
