
I purchased ARI Stream Quiz Pro on CodeCanyon....

Posted by peebeekay - 2022/08/20 05:10

SO I purchased your premium quiz plugin on Codecanyon but it got taken down for some reason and has been down for some time now. I can prove this also by sending license code i recieved when i purchased it. Since I purchased your product I was wondering if i could get access here to your premium member area so i can download your up to date plugin and everything? I dont think its fair for me to have bought your plugin but not be able to use it....

Any help would be greatly appreacited!!
