
Active Campaign Integration

Posted by SimonePols - 2022/09/22 16:49

Hi there,

I would like to integrate the quiz with AC (got the pro version).

I inserted URL and API but I can't find a way to select the LIST in AC that users have to linked to.

Any hint?

Thanks a lot
Simone

Hello,

Open "ARI Stream Quiz -> Quizzes" and select a quiz which you want to ingrate with AC. After this open "Settings" tab on quiz edit page, enable "Collect users' data", check "ActiveCampaign integration" checkbox and select AC list.

Regards,
ARI Soft
