
Facebook not share results or image

Posted by gABO - 2022/10/21 07:28

Hello,
For some reason my quiz isn't sharing in Facebook the results, the results image or even the preview image. You can test it here <https://bit.ly/3gn7jmi>

What could be happening

Thanks!

Hello,

Free version doesn't share quiz results and an image. It only posts a link to a page with the quiz. PRO version shares results with image and link to the quiz.
