
Results view author only

Posted by info@eenet.co.uk - 2022/11/01 17:37

Hi, is there some way I can change the results to only show by the logged on 'author' a bit like you have done with the controls (edit/view/etc) on the quizzes page where they can only be accessed by the author that created them. I am happy to change code with in the pluggin if you can point me in the right direction.

Thank you,
Mark

Hello,

Do you mean "ARI Stream Quiz -> Results" page on backend side?

Regards,
ARI Soft
