
Change Checkbox Design

Posted by TDLL2022 - 2023/01/09 17:47

Hey,
which CSS do I need to change the design of the checkbox-field of the answers? They are too big and do not fit my text-size, so I would like to make them smaller or maybe change the look of it.
Would be really glad, if someone could help me - thanks!

Found the solution:

`/* Question Answers Checkbox*/`

```
BODY .asq-theme.asq-theme-buzzfeed .ari-checkbox + .ari-checkbox-label:before {  
  line-height: 15px;  
  font-size: 15px;  
  margin-top: 3px;  
}
```

Hello,

Sorry for the delay. If you need any other help, let us know.

Regards,
ARI Soft
