Mailchimp Integration: Is it possible to Tag Users
Posted by apartridge2 - 2023/01/09 20:17
_____

Hello,
I have just created a quiz, and connected it with the Mailchimp account. Is it possible to tag users in Mailchimp with their quiz results?

I want to be able to categorize them with their result, and send them a result emails about their specific personality result.

Thanks

Hello,

Sorry, but currently the plugin doesn't support this ability. It is possible if integrate the plugin with MailChimp via Zapier, but Zapier can require a paid subscription.

Regards,
ARI Soft

I am waiting for your answer in this topic for a month already - https://www.ari-soft.com/ARI-Stream-Quiz/69789-Several-problems.html . And I receive messages only from bots.

Will you ever answer me? There is at least 1 bug, that you should fix. Thanks.
