
Export All Quiz Answers Into CSV

Posted by apartridge2 - 2023/02/03 20:32

Hello, is there a way to export all of the personality quiz answers into a CSV document? The current CSV only includes name, email, result, etc...

My client would like to use all the answers as analytics about her users

Hello,

The plugin doesn't support this ability, but all answers are stored in a database.

Regards,
ARI Soft

Thanks, is this a feature we can request?

Also, where can I locate these answers in the database?

Sorry, but currently we don't offer a service for custom development.

Answers are stored in #__asq_results DB table in "meta" field.
