
Issue with Personality Quiz

Posted by writerspace - 2023/02/15 20:20

I'm trying to do a personality quiz that has a series of yes or no answers. You get a point for each "yes" answer, and at the end, your personality is decided by the number of "Yes" answers. For example, up to 5 is one personality 6-10 is another personality, etc. I've set up the 4 personalities, but if I go through each question and give each personality 1 point for each "yes" then all 4 personalities have the same number of points.

To help, this is the quiz I'm trying to set up:

Would you survive if you found yourself in the 16th century?

1. Have you ever ridden a horse?
2. Have you ever visited a historical place & ran your hands over the walls, imagining who touched there before?
3. Have you ever dressed in historical clothes when it wasn't Halloween?
4. Have you ever wished to visit or live in a past time?
5. Have you ever gotten lost on the internet reading about life in the past?
6. Have you ever gotten a little excited when the lights went out & you had to light candles to see by?
7. Have you ever made butter?
8. Have you ever sealed a letter with melted wax?
9. Have you ever baked bread by hand (not bread machine)?
10. Do you find old books fascinating?
11. Have you ever made your own jelly/jam or canned vegetables?
12. Have you ever plucked a chicken or milked a cow?
13. Have you ever followed vintage hair tutorials?
14. Have you ever been caught awestruck by the beauty of a countryside or deep forest?
15. Have you ever peed in a bucket?
16. Have you ever washed in a stream or lake?
17. Have you ever found a leach on you?
18. Have you ever used herbs for healing?
19. Have you ever wielded a sword or dagger to defend your honor?
20. Have you ever used the word "tis, 'twas, or shall by mistake in everyday language?

Points 1-5 " You might love to read about the past, the brawny heroes and steamy love scenes, but you are very much rooted in the 21st century. You like your modern conveniences and wouldn't trade your e-reader for a real Highlander who probably smells like old ale, sweat, and dirt.

Points 6-10 " The past holds your heart and imagination, but you'd like it to stay away from your comfortable life. You like your hot showers, air conditioned/heated vehicle, and Netflix too much to give that up to live in the past. But bring on the Highlanders, Dukes, Pirates, and Outlaws in epic romances; the sexier the better!

Points 11-15 " You love history, but life is too busy to try to live there. But you watch all the period movies and would love to live in the romance books you read. If given the chance, you'd definitely visit a time in the past as long as no one tried to behead you!

Points 15-20 " You are really a time-traveling heroine who has gotten stuck in the 21st century. Quickly buy a ticket to Scotland and find a stone circle to dance in, so it can transport you to the place you truly belong (or lose yourself in as many historical books as you can!). https://www.ari-soft.com/images/fbfiles/images/ari_stream_quiz_screenshot.jpg

Hello,

If you have only "Yes"/"No" answers then it seems trivia quizzes should be suitable for your needs. Mark "Yes" answer as correct and users will earn 1 point for such answer. Trivia quizzes can show different results based on number of earned score. E.g. one template will be used for 0 - 5 points, another for 6 - 12 points and etc.

Regards,
ARI Soft
