
Error with the titles of my personalities

Posted by forexima - 2023/02/27 12:31

I used pro to create a personality quiz.
The titles of my personalities are as follows:

Mindset ready!
Mindset needs tweaking
Mindset needs full recoding

I have edited, saved and published several times.

But when the quiz renders it shows

You are Mindset ready!
You are Mindset needs tweaking
You are Mindset needs full recoding

How can I fix this please?

Hello,

Navigate to "Sharing" tab on "ARI Stream Quiz -> Settings" page and see "Title on result page" parameter for personality tests.

Regards,
ARI Soft
