
does the free version work?

Posted by andrej - 2023/03/29 09:28

Hello

I wanted to ask if the free version of wordpress quiz plugin works, that is, does the quiz start after entering the questions?
'Cause I can't handle it...

Best regards

Andrzej

And the main question - will you adapt Ari Quiz to Joomla 4.X?

Hello,

The provided link is available only for administrators to preview quiz. We can't open it.

Hi. It works. But the second quiz still doesn't. What should I do to get it started...

I don't know Wordpress at all, and I don't know where to put it. I copied the test that works, and replaced the questions. It's OK, but I'd like to know.

Regards.
