
Export Quiz to another website

Hello, thank you for creating such a fantastic quiz tool. I would greatly appreciate a feature that allows for the export of existing quizzes into a new website. I am currently in the process of developing a new version of my website, and will be installing a fresh version of Wordpress. If I want all my quizzes on the new website, I'll have to manually recreate each one, which is rather disappointing.

Do you have plans to add an Export/Import function? ;)

Hello,

We have this feature in our TODO list.

It has been pending for more than 5 years.

I wonder how the admins will react to this delay.
