
Mailerlite integration

Posted by marielille - 2023/08/15 13:35

Personality quiz: how do I send someone their specific personality results through MailerLite?
I can add them to a group, but not sure how to send individual results.
Thanks

Hello,

Currently the plugin doesn't provide ability to subscribe users to different groups depends on result personality for built-in MailerLite integration. It is possible to do it via Zapier or Make.com integration, but these services can require a paid subscription.

Regards,
ARI Soft
