

Change the name of the buttons and color

Posted by taryaniksergey - 2024/03/28 12:16

Good afternoon.
Please tell me what CSS code can be changed:
1. The name of the buttons (button "Continue", button "Play again");
2. The color of the button (button including "Starting a quiz (test)").
3. Is it possible to skip the button "continue" and have the results form appear.

This code does not work for me:
body .asq-theme .button.button-start-quiz {
background-color: green;
}

Regards,
Sergey Taryanik

Hello,

- 1. You can read here how to change existing translation/create a new one.
- 2. Try the following CSS rule:

.button-start-quiz {background-color: green !important;}

Could you provide a link to a quiz on your site if it doesn't help?

- 3. If you mean the button which is used to navigate in multi-page trivia quizzes then open quiz settings page, navigate to "Settings" tab and uncheck "Multi pages -> Use 'Continue' button to navigate to the next page" checkbox.

Regards,
ARI Soft

- 2. Done
 - 3. it doesn't work.
- <https://upsup.by/quiz>

and one more question: How to reduce the font of the headings of the questions

Re:Change the name of the buttons color and

Posted by admin - 2024/03/28 15:11

The button is shown when a quiz contains question(s) with multiple choices so user can select several answers for a question and confirm quiz completion.

How to reduce the font size of the headings of the questions?

Re:Change the name of the buttons color and

Posted by admin - 2024/03/31 06:51

The following CSS rule can be used to change font properties of question titles:

```
body .asq-theme.asq-theme-buzzfeed .quiz-question-title {font-size: 14px !important; font-weight: 300;}
```

Regards,
ARI Soft

Thanks for your reply

How can I change the names of these buttons? please

Дѣлать кнопки «Продолжить» и «Назад»
Дѣлать кнопки «Продолжить» и «Назад»

You can use POEdit tool and modify /languages/ari-stream-quiz-ru_RU.po file or use Loco Translate plugin and modify RU translation.

Regards,
ARI Soft

Re:Change the name of the buttons color and

Strange. The Loco Translate plugin has a russian translation of the "continue" button and there is also a language file ari-stream-quiz-ru_ru. But it is not translated on the working quiz page.

Could you send all files from /languages folder by email so we can investigate the problem?

Regards,
ARI Soft
