licence

Posted by Markmcl - 2017/05/10 05:14

_____

I was wondering how you handle the fancy 3 licencing, particularly in thr free wordpress version.
I am really pleased to see it on .org, as it has always been a great lightbox script.
 I am going to purchase the pro level anyway, but was wondering.

Second question if I may?
I have enabled the lightbox for Woo product images, as displayed with single-product.php
There is no lightbox functionality. Perhaps the new image display capability in latest woo plugin update is overriding it?

_____

Hello,

Thank you for your interest in our product. Regarding your questions:

1. Original Fancybox script is under GNU GPL 3 license for open source applications and "ARI Fancy Lightbox" is available in WordPress plugins repository.

2. Could you provide a link to a page where the lightbox doesn't work?

Regards,
ARI Soft

_____

https://amazingmomentscq.com.au/product/bucket/
the content for the site is dummy content, but all else is functional
using firebug I can see that ari fancy-box is active but the zoomImg class is as far I know applied by Woo

_____

Update the plugin to v. 1.1.6. It should work fine with WooCommerce 3.x.

Regards,
ARI Soft
