_____

How do I disable right click so you cannot see the video menu? whether its youtube or mp4. Need this for a client.

Or, how do I hide the video controls?

_____

Open "Advanced" tab on "ARI Fancy Lightbox -> Settings" page and enable "Protect mode" parameter to disable right click.

Hello,

It did not work, data-controls="0" did not hide controls. Also I can still right click even after I selected 'protect mode' in advanced setting.

Code Word

I also tried it with mp4 and did not work.

Please advise. Thanks.

Hello,

If you want to hide YouTube controls, add controls=0 parameter to video URL. You can find here list of all available parameters. The code will look like:

The plugin doesn't support ability to disable context menu for YouTube. It is rendered by YouTube service and doesn't provide ability to remove it.
