
Ari Fancy Lightbox - Direct Photo-Upload

Posted by slater - 2017/09/26 15:50

Hi,

is it possible to build a direct photo upload to facebook?

Actually we can only do a post to facebook pointing to the "site"

maybe its a cool thing to share directly into the own Album inside my profile.

thank you

Chris

Hello,

We have in our TODO list to use an image and title in post on Facebook when the image is shared. It will be implemented in the next major release.

Regards,
ARI Soft
