
YouTube Lightbox

Posted by litepath - 2017/10/18 13:47

Good Morning,

I used the instructions listed below:

When the parameter is enabled, links to YouTube videos will be opened into the lightbox.

For example the following sample links will be opened into the lightbox:

Video tutorial

And created a test page on my Wordpress/woocommerce site. But cannot get the lightbox to show or work. All I can manage to achieve is opening the YT page for the video that I linked.

I have the Convert Links and Show Full Screen buttons checked.

Any advise of what I am doing wrong?
thanks you in advance.

Hello,

Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft

Thank you! Problem solved for test page I created. Looks like another Fancy Box Plugin was creating the issue.

Thanks again,
litepath
