
Fancybox with Divi Theme

Posted by sktalwar - 2017/12/11 17:48

Hi,

I am using Divi Theme for my site. I've activated your free plugin but when I go to the gallery, the Divi theme lightbox opens up and then when I click again I see Fancybox. What can I do that the photos open in Ari Fancy Lightbox? Also, I'm not getting arrows to move to the next photograph.

I love the plugin but need to sort these issues before I submit to my client.

Thanks
Seema

Hello,

Please send a link to a page where we can see the gallery. You can send it by email.
