
Thanks and suggestions

Firstly many thanks for the excellent support. Top class and some, if not the best, I've had from a plug in author. A plug in like ARI Lightbox was something I've been looking for for a long time and stumbled across this which fits the bill perfectly.

If I may could I suggest a couple of small extras?

I would like the option of having the share buttons in the lightbox as black and white as well as the current colour option? Also would it be possible to have an Instagram share button too?

Thanks again,

Jim

Hello,

Thank you for your suggestions, we will take them into account and investigate ability to add Instagram share button and add more options to change styles for lightbox elements.
