## guttenberg gallery lightbox not working

Posted by halalfoodgastro - 2018/11/01 12:27

---

Hello

I have your plugin installed on my site <https://halalfoodgastronomy.com/https:Guttenbergdgastronomy.com/>

However, it won't pick up the new type of guttenberg gallery & show the light box eg see menu pics at bottom of this post  
Haute Dolci Leicester Menu

Is there an easy fix for this or should I look for an alternative plugin?

Hello,

Try the solution from this post.

Regards,  
ARI Soft
