Thumbnails button not visible
Posted by Alexandros_T - 2018/12/13 21:29
_____

Thumbnails button is not visible when using with Responsive Gallery Grid. Is there an easy fix?

Is it possible to see the problem anywhere?

Regards,
ARI Soft

The plugin can't find thumbnails for image in the gallery due to specific HTML layout which is generated by gallery plugin. Open "ARI Fancy Lightbox -> Settings -> Advanced" page and populate "Custom JS code" parameter with the following code:

```
$(document).on('ari-fb-after-init', function() {
  $('.rgg-img').each(function() { var $this = $(this);$this.attr('data-thumb', $this.attr('data-src')); });
});
```
