## Add Lightbox CSS to Elementor

Posted by Raymond - 2019/07/31 08:05

---

How do I add the no-lightbox CSS class to Elementor links? I am using Elementor Pro for my website and I can't seem a way to add the "no-lightbox" to the link:  
appetize.io/app/n3k34ya9m7e0xz504c40vn8hf4?device=iphonex&scale=75&orientation=portrait&osVersion=12.2&deviceColor=black. I have tried 2 methods which I have attached screenshots for. <http://www.ari-soft.com/images/fbfiles/files/Pictures-8d69914c16f95f897257116ef2b53025.zip>

Hello,

We don't have an experience with Elementor. Contact Elementor support please and ask how to add a custom CSS class to the link.

Regards,  
ARI Soft
