
ARI Lightbox doesn't work on our website. Why?

Posted by DenSol - 2019/08/04 15:40

Here the link:

<http://s27806.p20.sites.pressdns.com/fancybox-test/>

All checkboxes for image in settings are selected

Hello,

It looks like a problem with CDN or script caching plugin. For example the following JS file can not be loaded:

<https://bytescout.com/wp-content/plugins/ari-fancy-lightbox/assets/fancybox/jquery.fancybox.min.js?ver=1.3.6>

The similar problem with other scripts also occur on your site.

Regards,
ARI Soft
