How can I make a video auto-play?

Posted by dev1 - 2019/08/14 15:04

_____

I have a video that pops up in a lightbox and I would like it to auto-play once the lightbox pops up. How is that possible?

Thanks!

_____

Hello,

What video do you show into the lightbox? YouTube, Vimeo, MP4 or something another?

Regards,
ARI Soft

_____

We are using Vimeo.

_____

Open "ARI Fancy Lightbox -> Settings -> Integration" page and enable "Vimeo videos -> Auto-play" parameter:
