## Styling a gallery lightbox

Posted by Flotto - 2019/09/10 10:37

---

Hello

I try to style a gallery lightbox:

```
fancybox-container {  
  width: 60%;  
  height: 60%;  
  border: 20px solid #73AD21;  
  padding: 100px;  
}
```

<https://www.bewoners-stadseiland.nl/monitoring-bloemrijke-bermen/>

Questions:

- How can the fancybox-container appear centered on the screen?
- How can the grey gradient on the bottom be dismissed?
- How can the white line near the bottom be dismissed?
- How can I make a padding between caption and image
- I would like to show the navigation and caption permanent

Thanks a lot for helping me!

Hello,

Add the following custom CSS rules:

```
/* center container */  
.fancybox-container {  
  top: 20%;  
  left: 20%;  
}
```

```
/* remove white line */  
body .fancybox-caption {border-top-style:none}
```

```
/* remove gray background */  
body .fancybox-caption-wrap {background:none}
```

Open "ARI Fancy Lightbox -> Settings -> Lightbox" page and populate "Idle time" parameter with 0 value to show navigation buttons and caption always.

Regards,  
ARI Soft

Thank you very much for your help!

the lightbox looks much better now.

<https://www.bewoners-stadseiland.nl/monitoring-bloemrijke-bermen/>

This the code I use.

```
/* styling caption */
```

---

```
.fancybox-caption {text-align: center; font-size: 40px; font-weight: 500; color: currentcolor; }
```

```
/* padding around image */  
.fancybox-image {padding: 20px;}
```

```
/* styling lightbox */  
.fancybox-container {  
  top: 10%;  
  left: 20%;  
  width: 60%;  
  height: 80%;  
  border: 0px solid #73AD21;  
  box-shadow: 0 4px 8px 0 rgba(0, 0, 0, 0.2), 0 6px 20px 0 rgba(0, 0, 0, 0.19);  
}
```

```
/* remove white line */  
body .fancybox-caption {border-top-style:none}
```

```
/* remove gray background */  
body .fancybox-caption-wrap {background:none}
```

More one question:  
How can add a margin around the buttons in the upper right corner?  
Thank you!  
Otto

---

Add the following CSS rule:

```
.fancybox-show-toolbar .fancybox-toolbar {  
  margin-top: 10px;  
  margin-right: 10px;  
}
```

It works!

I think it is really a nice lightbox now. Very nice to be able to style it.

Thank you for your kind help,  
Best regards, Otto
