## Don't have arrows for gallery navi

Posted by cyberworx - 2019/09/19 22:14

---

Hello,

I run Responsive Gallery Grid (rgg) together with Ari Fancy Lightbox.

It's working fine for single images, but in my galleries don't have the navigation arrows.

This is my Gallery config:

The Group Selector in Integration Page is: A.album

I'm wrong with this settings?

Michael

Hello,

Populate "ARI Fancy Lightbox -> Settings -> Images -> Custom grouping selectors" parameter with the following value:

.rgg-imagegrid\$\$A

Thank you for your fast support. Arrows are working now, but how can I show the Thumbnail Navigation?

Michael

---

Open "Lightbox" tab on "ARI Fancy Lightbox -> Settings" page and enable "Buttons -> Thumbnails" parameter.

Regards,

ARI Soft

The Thumbnail checkbox is activated.

[https://test.customizer.de/wp\\_test/Zwischenablagebild.png](https://test.customizer.de/wp_test/Zwischenablagebild.png)

Result:

[https://test.customizer.de/wp\\_test/Zwischenablagebild1.png](https://test.customizer.de/wp_test/Zwischenablagebild1.png)

---

Could you provide a link to a page where the problem occurs?

Regards,

Thumbnails are not show because the gallery doesn't generate it. It is possible to show original images as thumbnails, for this open "ARI Fancy Lightbox -> Settings -> Advanced" page and populate "Custom JS Code" parameter with the following code:

```
$( 'A' ).each(function() { var $this = jQuery(this); $this.append(''); });
```

We can't check it because the gallery is not available.

Oh! Sorry I've changed the URL.  
Here is the new one: Gallery
