Hello,

Loading spinner is created with pure CSS. If you want to use a gif file as spinner, open "ARI Fancy Lightbox -> Settings -> Style" page and populate "Custom CSS" parameter with the following code:

```
body .fancybox-loading {  
    animation: none !important;  
    background: url(GIF_SPINNER_URL) center/cover no-repeat;  
    border-style: none;  
}
```

Just replace GIF\_SPINNER\_URL with URL to GIF file.

Regards,  
ARI Soft
