
Always show thumbnail

Posted by xuanphuc.8509 - 2019/10/01 02:30

Hello,
Is it possible to always show thumbnail in lightbox (no need click button, showing at the first time open lightbox)
Thank you

The problem occurs because the page contains images twice on the page. For mobile view and desktop view.

Try to add the following code to "Custom JS code" parameter on "ARI Fancy Lightbox -> Settings -> Advanced" page:

```
$('.mobile_gallery A').addClass('no-lightbox');
```

Could you provide a temporary access to your WordPress backend by email so we can investigate the problem in more details?
