## Info bar - issues with colors

Posted by victoo - 2019/11/13 11:48

---

Hi

I've notice that Info bar looks different on different themes and browsers. I've turn off all plugins and tested with Twenty Twelve, Twenty Twenty and EXTRA from Elegantthemes. And it looks like this:

[http://elipinki.pl/pliki/info\\_bar.jpg](http://elipinki.pl/pliki/info_bar.jpg)

Because I use EXTRA it is issue for me. (on Chrome icons are almost invisible, on EDGE is a little bit better).

Sample gallery:

<http://elipinki.pl/2018/10/znamy-zwycieczcow-ii-maratonu-orientacje-kiwon/>

Any idea?

thanks

Hello,

This problem with theme styles. It uses some global CSS selectors which are not best practice. Open "ARI Fancy Lightbox -> Settings -> Style" page and add the following code to "Custom CSS" parameter:

```
button.fancybox-button {  
    color: #ccc;  
}
```

Regards,  
ARI Soft
