Good afternoon, I use the PRO version and it is fantastic.
On the other hand, I want to know if there is the possibility of putting adsense ads in the light box at the bottom of the mobile and PC. The ad will replace the title on the mobile.

I want to fill that gap that appears at the bottom of the mobile with the adsense ads. Would you help me with the code.

Hello,

Sorry, but the plugin doesn't support this ability.
