
Resize lightbox content

Posted by bios2 - 2020/11/11 03:08

Hi! sorry, I have read various post about "Resize lightbox" but it dont work for me mmm...

```
.fancybox-slide--iframe .fancybox-content {  
  width : 800px;  
  height : 600px;  
  max-width : 80%;  
  max-height : 80%;  
  margin: 0;  
}
```

I want resize the content box not for a link or URL but for a "form shortcode"

I see the lightbox so large as the whole page, almost fullscreen

How can resize it like 800x600 ?

Thanks

I used this code: (as documentation)

Thanks

Hello,

Could you provide a link to a page where the lightbox is used?

Regards,
ARI Soft

Sure!
Thanks for the quick reply

Here, it's the blue button in the middle of the page
