
Horizontal Scrolling with PDF

Posted by thecaptain00 - 2021/01/12 21:23

Hello,

I have a family tree which is very wide. When I load it in the viewer, I can't scroll horizontally. I'm sure there's no way to do this currently, but can this go into the suggestion box?

Thank you.

Hello,

Is it possible to see the problem anywhere?

Regards,

It's a private site in development at the moment. Try loading this file. <http://www.ari-soft.com/images/fbfiles/files/SchwaebischeAlbKastlerhof.zip>
