Possible to group photos further down a page?

https://www.ari-soft.com/images/fbfiles/images/Screen_Shot_2021_02_02_at_8.png Hello,

I'm using Divi to build my site using ARI Fancy Lightbox because I like how it looks.

I have two images at different parts of a page I'm working on, and I'm wondering if it's possible to group them together in a gallery so that the lightbox is able to navigate between the two images ?

If so, how would I go about doing this?

Thank you https://www.ari-soft.com/images/fbfiles/images/Screen_Shot_2021_02_02_at_8.pnghttps://www.ari-soft.com/images/fbfiles/images/Screen_Shot_2021_02_02_at_8.png

Hello,

Could you provide a link to a page with images?

Regards,
ARI Soft

https://yenleux.com/project-little-scouts/

This page is currently a work in progress. My goal is to have any images on this page be part of a gallery so that you can navigate the lightbox with arrow keys, but the images aren't going to end up side by side.

_____

Open "ARI Fancy Lightbox -> Settings -> Integration" page and populate "Images -> Custom grouping selectors" parameter with the following value:

.et-l--post$$.et_pb_image A

This worked! Thank you!

What if I wanted to separate the groupings at some point later on down the road?

_____

If your builder supports ability to add custom HTML attribute/CSS classes to image links then it is possible to group images.
