
How can I navigate between all images on a page?

Posted by Jeroenb - 2021/03/14 15:23

I'd like to be able to set up Fancy Lightbox to navigate between all images on a page regardless of gallery or individual images.

I use Nextgen gallery Pro.

Here is an example page: <https://jeroenbackx.com/portfolio/3d/professional/sticky-studios-games/>

Thank you very much!

Hello,

Open "ARI Fancy Lightbox -> Settings -> Integration" page and populate "Images -> Custom grouping selectors" parameter with the following value:

.justified-gallery A

Thank you very much for the quick response. Unfortunately it has not seemed to work.

The attached image shows the way I have added the code you provided.

If I can provide any information that would help, I would be happy to do so.

Add the following code to "Advanced -> Custom JS code" parameter:

```
$(window).load(function() { $('a').attr('data-fancybox', 'gallery'); });
```

Regards,
ARI Soft
