
how to setup Facebook like button

Posted by chaitany - 2021/06/12 12:57

I just purchased the plugin. while setting it. I found there is no way I can setup a facebook like button with the image. is it possible to get a like button with facebook comments?

Hello,

Open "ARI Fancy Lightbox -> Settings -> Share" page, navigate to "Comments system" section, select "Facebook" in "Comments system" drop-down and select "Image" in "Supported types" drop-down to enable Facebook comments for images.

Currently the plugin doesn't support "like" button.

Regards,
ARI Soft

I have successfully integrated the comments section, I am asking about Like button. is there any way to add a like button with the comments section?
